

EDF GROUP, A WORLD LEADER IN ALL FORMS OF GENERATION, ENERGY TRADING, TRANSMISSION, DISTRIBUTION AND SUSTAINABLE DEVELOPMENT

ELECTRICITE DE FRANCE (EDF) is one of the world's leading energy companies, active in all areas from generation to trading and network development and management. We operate in over thirty countries worldwide and are the market leader for electricity in France and the UK.

EDF has the capability to provide highly technical and innovative solutions for the integration of variable renewable sources (including wind and solar) in power systems.

EDF operates across the full spectrum of energy sources including: nuclear, thermal and renewables (hydro, wind, solar).
