

AUTOPARTAGE DE VÉHICULES ÉLECTRIQUES **ELECTRIC CAR-SHARING SCHEME, THE CONNECTED SYSTEM**

DPI, EDF + Direction Commerce, EDF

L'autopartage est un dispositif de covoiturage de véhicules électriques pour les agents du site. Le CNPE de Chooz met à disposition de ses agents deux types de véhicules : citadin et utilitaire, rechargeables via des bornes autopartage sur site ou en ville.

Car-sharing is a car-pooling system that provides electric vehicles for station staff. Chooz NPP provides two types of vehicles for its staff: a small city car and a utility, rechargeable via specific terminals on the main site car park, as well as at strategic points in member communities.
