

EDF – HYDRO PRODUCTION & ENGINEERING DIVISION: **A three-fold achievement**

AN INDUSTRIAL ACHIEVEMENT

Major projects in France and abroad: Romanche-Gavet, 250 million Euros invested in France's biggest hydro project; 80 million Euros invested in modernising the locks on the River Rhine; 100 million Euros invested in modernising the Rance tidal plant; management of major projects in India, Brazil and Cameroon, etc.

Innovative high-tech tools: Regional e-operating centres for a real-time performance; e-monitoring for on-line analysis of equipments and structures; the e-storage project : a variable-speed generator at the Cheylas pumped-storage facility, for a wider range of ancillary services.

TRIGGER FIGURES:

620 million Euros spent on the fleet in 2013, including 483 million Euros on modernisation and maintenance of hydro assets and 81 million Euros on the expansion of generation capacity
