

A LEADER IN GREEN ELECTRICITY PRODUCTION

International presence

- Operates in 18 countries, mainly in Europe and North America
- New entrant in Africa, Middle East and India

Multiple sources

- Onshore wind energy, accounts for 87% of production capacity
- Solar, second avenue of expansion
- Offshore wind energy, a segment gaining real momentum
- High potential energy sources
(Marine energy, New generation of solar technology)

Generation Activity

7,190 MW
gross installed

2,320 MW
gross under construction

06/2014
