

PLAYING THE NUCLEAR CARD

The EDF Group is the world's no. 1 nuclear operator. With 73 reactors in France and the United Kingdom, it has a net nuclear capacity of 72.9 GW, Europe's largest. Decades of experience in the design, construction operation and maintenance of this fleet have given EDF unrivalled expertise in the nuclear field. It is now leveraging this experience elsewhere in China notably, through partnerships entered into 30 years ago.
