

# RENEWABLE ENERGY

INEXHAUSTIBLE, CO<sub>2</sub>-FREE SOURCES OF ENERGY

The EDF group devotes one third of its industrial investment to renewable energy. This mostly goes towards highly competitive hydroelectricity, in combination with wind and solar power, to provide the best possible solutions for market conditions.

**No.1** hydroelectric producer in the EU, EDF is investing in safety and performance.

**37%** of gross operational investment goes towards renewable energy.

**€566 m** investment in renewable energy for island power systems.
